SPECIAL EDITION

SEASIDE DOWNTOWN GARDEN TOUR

Oh, what a beautiful day in the neighborhood! The downtown themed pocket gardens were blooming in all their glory on Sunday, July 17th, when the Garden Tour enjoyed these distinctive corners of town. SDDA wishes to thank the Holiday Inn Express for the use of their conference room and breakfast room. Pam Fleming, Seaside's own downtown gardener, gave a presentation on visual highs and lows in the garden. She also explained the reasoning for certain foliage in pre-determined areas. It is actually the area that pre-determines the foliage, such as herbs in front of a restaurant! Pam is paid by the tax collected on local businesses that have the themed garden areas. The Downtown Association pays Pam for her care of the Flower Baskets, all of which is a sponsor donation program. We are proud to bring the beauty to our streets every year and very appreciative to have a caring individual who loves her job!
